

**MTEX**  
META TRADE EXCHANGE

WELCOME TO  
**MTEX**  
*MULTY TRADE EXCHANGE*

# About Us

*The MTEX Blockchain emerges as a revolutionary Layer 1 solution, boldly claiming the mantle of the "fastest transaction capacity." This technical paper delves into the intricate details of MTEX 's architecture, consensus,*

*mechanisms, scalability strategies, cryptographic safeguards, interoperability, governance models, tokenomics, practical applications, developer tools, and its potential to redefine blockchain performance. Meticulously designed and thoroughly tested, MTEX stands as a testament to innovative engineering and its potential to reshape the blockchain landscape.*

# WHAT IS BLOCKCHAIN?

**Basic Structure:** Imagine a blockchain as a digital ledger that records transactions. Layer 1 is the core of this ledger. It consists of the essential elements, including the blockchain's protocol, consensus mechanism, and native cryptocurrency.

**Protocol:** Layer 1 blockchains have their own set of rules and protocols that define how transactions are created, validated, and added to the blockchain. These rules ensure the security and integrity of the network.

**Consensus Mechanism:** Layer 1 blockchains use a consensus mechanism to agree on which transactions should be added to the blockchain. This is typically achieved through methods like Proof of Work (PoW) or Proof of Stake (PoS), and it prevents fraudulent activities.

**Native Cryptocurrency:** Every Layer 1 blockchain has its own cryptocurrency. This digital currency is used for various purposes, such as paying transaction fees and securing the network through staking (in PoS systems). Security and

**Decentralization:** Layer 1 blockchains are known for their high level of security and decentralization. Decentralization means that no single entity has complete control over the network, making it resistant to censorship and tampering.

WORLD FIRST MULTY TRADE EXCHANGE FOR YOUR FINANCIAL ASSETS, POWERED BY THE FASTEST BLOCKCHAIN

# SHAPING TOMORROW'S BLOCKCHAIN LANDSCAPE

As we close this journey, remember that MTEX is not just a blockchain; it's a revolution. With its speed, scalability, and community-centric approach, MTEX paves the path for a new era of blockchain applications, redefining industries and ushering in a future where blockchain is the cornerstone of innovation. Experience the transformation with MTEX, where the future is being forged today.

# KEY FEATURE

## EXTENSIVE ASSET SELECTION

MTEX Exchange offers an extensive array of cryptocurrencies and digital assets for trading, including major coins like Bitcoin (BTC), Ethereum (ETH), and Ripple (XRP), as well as a wide range of altcoins and emerging tokens. The platform continually expands its asset selection to ensure users have access to the most promising and innovative projects in the market.

## ADVANCED TRADING TOOLS

MTEX Exchange empowers traders with a suite of advanced trading tools designed to optimize their strategies. These tools include real-time market data feeds, customizable charts with a wide range of technical analysis indicators, advanced order types such as stop-loss and take-profit orders, and algorithmic trading options. By leveraging these tools, users can execute trades with precision and make data-driven decisions.

## HIGH-LEVEL SECURITY MEASURES

MTEX Exchange places paramount importance on the security of user funds and data. The platform employs cutting-edge security protocols, including multi-factor authentication, hardware security modules, encrypted communications, and cold storage solutions. Regular security audits and vulnerability assessments are conducted to ensure the platform remains resilient against potential threats.

## INSTITUTIONAL-GRADE TRADING FEATURES

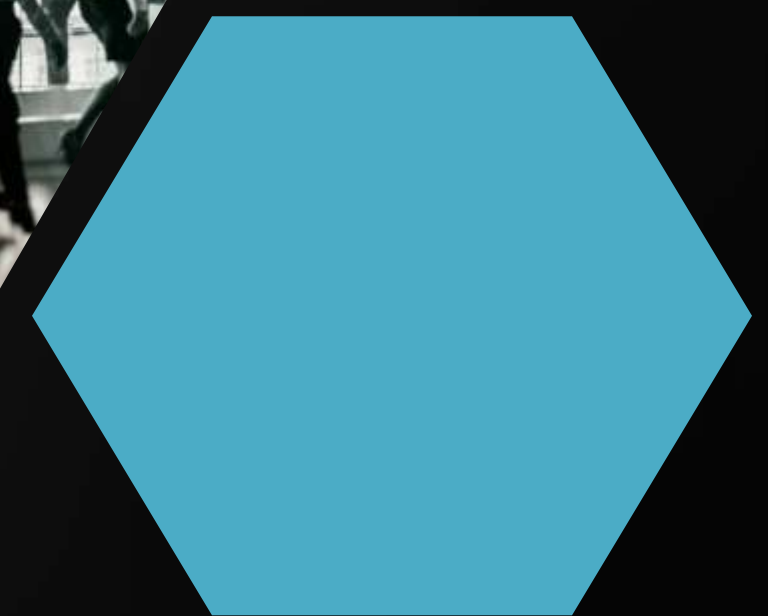

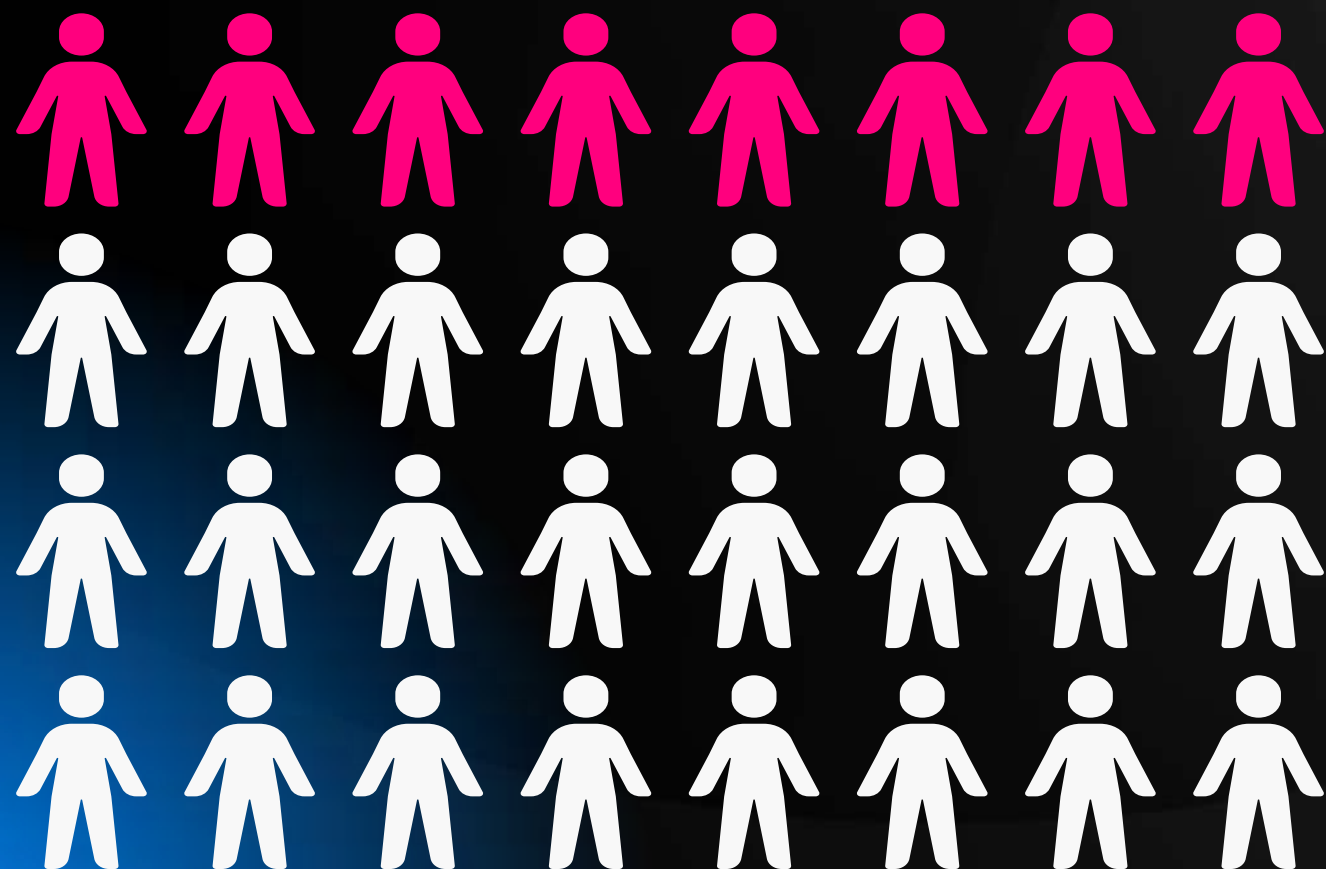

MTEX Exchange offers advanced trading features suitable for institutional clients, such as over-the-counter (OTC) trading, margin trading, and options trading. These features enable institutions to access liquidity, hedge positions, and manage risk effectively within the platform.

# ROADMAP

## MONTH 31-36

### FUTURE TRADING WITH 100X LEVERAGE

Lorem ipsum dolor sit amet, consectetur MTEX unleashes the potential of 100X leverage trading, empowering traders with advanced tools to explore dynamic markets confidently.

## MONTH 7-12

### NFT MARKETPLACE

Our NFT marketplace takes center stage, merging creativity and blockchain technology. MTEX empowers artists, collectors, and enthusiasts alike.

## MONTH 01-06

### DEX UNLEASHED

Our Decentralized Exchange (DEX) launches, bringing unparalleled trading experiences. OTX holders are rewarded for participation, fostering community growth.

## MONTH 13-18

### SECURE WALLET ROLLOUT

MTEX launches a secure wallet, ensuring users' assets remain impervious to threats, and fostering trust within the ecosystem.

## MONTH 19-24

### CEX EXCHANGE & IDO LAUNCHPAD

The MTEX ecosystem expands with a centralized exchange (CEX) and a pioneering Initial Offering (IO) platform, supporting innovative projects,

## MONTH 25-30

### EDUCATION & COMMUNITY BUILDING

Empowering the community is paramount. Educational initiatives and community-building efforts fuel widespread adoption

# TOTAL COIN SUPPLY

## TOKEN DISTRIBUTION

100 CR

### 40% INITIAL COIN OFFERING(ICO)

- The ICO will be the Primary method for distributing tokens to the public.
- 40% of the total supply which is 220 million tokens, will be allocated for the ICO.

### 5% TEAM AND ADVISOR

- Allocate 5% of total supply, which is 27.5 million tokens, to the core team and advisors.
- Implement vesting period of 2-4 years to ensure long-term commitment

### 10% INFLUENCERS AND MARKETING

- Reserves 10% of total supply, which is 55 million tokens, for influencers and marketing efforts.
- This allocation will be used to incentivize influencers and promote the project

### 10% CEX LISTING

- Allocate 10% of the total supply, which is 55 million tokens, for covering listing fees and meeting liquidity requirements on major centralized exchanges (CEXs).

### 10% STAKING REWARDS

- Reserve 10% of the total supply, which is 55 million tokens, for staking rewards.
- Users who stake MTEX tokens will receive rewards, encouraging participation and network security.

### 20% LIQUIDITY POOL

- Allocate 20% of the total supply, which is 110 million tokens, to establish a liquidity pool on decentralized exchanges (Dex).
- Liquidity is essential for traders on the MTEX Exchange platform.

### 5% COMMUNITY AND PARTNERSHIPS

- Allocate 5% of the total supply, which is 27.5 million tokens, for community incentives and strategic partnerships.
- This allocation will foster engagement and collaboration within the OTX community.

# Token Utility

MTEX TOKEN WILL BE USED WITHIN THE MTEX EXCHANGE ECOSYSTEM FOR

**Trading fee discounts**

**Voting on exchange decisions**

**Access to premium features and services**

**Governance participation**

# MTEX COIN AIRDROP

LEVEL	AIRDROP
REGISTRATION	10 MTEX
LEVEL 1	4 MTEX
LEVEL 3	3 MTEX
LEVEL 4	2 MTEX
LEVEL 5	1 MTEX

## How it works:

1 Share your unique link. 2 For every friend you invite, earn rewards.

3 They invite friends? You get commissions on THEIR invites too... up to 4 LEVELS DEEP!

But, there's a catch to ensure long-term value and trust:

 **Lock & Load:** Tokens received from the airdrop will be locked. And here's how they unlock:

- Every 6 months, 20% of YOUR airdropped tokens will be released to you. Think of it as a steady stream of rewards just for being an early believer in MTEX !

Why lock? We're committed to a stable, growing ecosystem and we want our community to grow with us.

**THE MORE YOU REFFER MORE YOU WILL EARN**

# MTEX PRIVILAGE CLUB

## ADVANCE TOKEN BUYING

- YOU CAN BUY MTEX FROM EXCHANGE AND DEPOSIT IN YOURR WALLET
- YOU CAN USE IT TOPUP YOUR ID OR YOUR TEAM AND ALSO YOU CAN HOLD
